American Academy of Pediatrics

Vanderbilt Assessment Scale, FOLLOW-UP: **Parent-Informant Form**

Child's name: _____

Parent's name:

Date: _____ DOB: _____ Age: _____

Directions: Each rating should be considered in the context of what is appropriate for the age of your child. When completing this form, please think about your child's behaviors since you last rated them.

This evaluation is based on a time when your child: 🗆 Was on medication 🔅 Was not on medication 🔅 Not sure

Behavior	Never (0)	Occasionally (1)	Often (2)	Very Often (3)	
 Does not pay attention to details or makes mistakes that seem careless with, for example, homework 					
2. Has difficulty keeping attention on what needs to be done					
3. Does not seem to listen when spoken to directly					
 Does not follow through on instructions and does not finish activities (not because of refusal or lack of comprehension) 					
5. Has difficulty organizing tasks and activities					
 Avoids, dislikes, or does not want to start tasks that require ongoing mental effort 					
 Loses things necessary for tasks or activities (eg, toys, assignments, pencils, books) 					
8. Is easily distracted by noises or other stimuli					For Office Use Only
9. Is forgetful in daily activities					2s & 3s
10. Fidgets with hands or feet or squirms in seat					
11. Leaves seat when remaining seated is expected					
12. Runs about or climbs too much when remaining seated is expected					
13. Has difficulty playing or beginning quiet play games					
14. Is on the go or often acts as if "driven by a motor"					
15. Talks too much					
16. Blurts out answers before questions have been completed					
17. Has difficulty waiting his or her turn					
 Interrupts or intrudes into others' conversations or activities or both 					For Office Use Only 2s & 3s
